

ALEK ANTONIUK, OAA

Alek Antoniuk has over 34 years of experience in building code development and design and is a recognized expert in the development of construction codes in Canada.

Alek Antoniuk gained a hands-on appreciation of the complexities of the building permit process as the principal of his own architectural design practice for 5 years and as the deputy chief building official for the former Borough of East York (now City of Toronto) for 5 years.

Although he is best known for co-ordinating and managing the technical development of the 2006 and the 2012 editions of the Ontario Building Code, Alek Antoniuk played a lead role in managing the code advisory services of the Ontario Ministry of Municipal Affairs and Housing since 1989. He is also known for initiating the CodeNews e-bulletin service.

He has a dedicated interest in the sensible and practical application of codes and has been involved for many years in the development of codes and standards in Ontario and Canada. He has also participated extensively as an active member on numerous government and industry committees and panels, a few of which include:

- Member, Provincial/Territorial Policy Advisory Committee on Codes
- Member, Provincial/Territorial Subcommittee on Plumbing Codes
- Member, Canadian Advisory Council on Plumbing
- Liaison, Ontario Home Builders' Association Technical Committee
- Liaison, OAA Sub-Committee on Building Codes and Regulations
- Chair, Expert Advisory Panel on Glass Panels in Balcony Guards

Alek Antoniuk completed his Bachelor of Architecture degree at the University of Waterloo and has been a member of the OAA since 1980. He holds an Ontario BCIN for all OBC categories of qualifications.
